

DIGITAL INHERITANCE
PROTOCOL

DeadDrop

Your Digital Afterlife, On Your Terms

Your keys. Your memories. No one else.

01 — THE PROBLEM

What happens to your digital life when you're gone?

\$50B+

in crypto unclaimed every single year

2B+

photos lost when cloud subscriptions lapse

400M+

unbanked Indians with no digital legacy plan

No solution exists that combines **encryption**, **automation**, and **memory preservation** — until now.

02 — THE SOLUTION

One vault for everything you leave behind.

DeadDrop unifies encrypted storage, automated inheritance, and memory preservation in a single, trustless protocol.

- **AES-256 Encrypted Storage**

- **Blockchain-automated inheritance**

- **Beneficiary assignment**

- **Memory capsules & voice notes**

03 — HOW IT WORKS

From you, to them — automatically.

01

Store

Encrypt your keys, documents, memories & passwords.

02

Configure

Set an inactivity threshold & assign beneficiaries.

03

Chainlink watches

Automated 24-hour on-chain activity monitoring.

04

Legacy releases

Beneficiaries claim everything, automatically.

04 — CORE FEATURES

Everything your legacy needs.

Vault Health Score

Real-time security scoring for your entire vault.

Memory Capsules

Time-locked notes, photos & voice for loved ones.

Private Safe

Six encrypted sections for every asset class.

Legacy Settings

Define rules, thresholds & beneficiaries.

AI Vault Assistant

Guided setup and live security recommendations.

Emergency Contact

A trusted human fallback, always on standby.

05 — TECH STACK

Built on proven, decentralised infrastructure.

FRONTEND & APP

React 18

Vite 5

TailwindCSS

Framer Motion

Zustand

WEB3 & SECURITY

Chainlink Automation

IPFS

AES-256

ethers.js

Polygon

06 — MARKET OPPORTUNITY

A \$50B problem no one has solved.

\$50B+

unclaimed crypto annually

4.5B+

people with no digital legacy plan*

\$100B+

digital asset market by 2030

TARGET Crypto holders · HNIs · Families · Enterprises

07 — WHY DEADDROP WINS

The only vault built for after.

	DeadDrop	Traditional Will	Password Manager	Cloud Backup
Encrypted asset storage	✓	✗	✓	✗
Automated inheritance	✓	✗	✗	✗
Trustless on-chain release	✓	✗	✗	✗
Memory & voice capsules	✓	✗	✗	✗
Beneficiary assignment	✓	✓	✗	✗

08 — ROADMAP

The path to total digital permanence.

“You leave things for the people you love. They find them. You never have to be in the room.”
